DETAILED ACTION

Information Disclosure Statement

1. The references listed in the Information Disclosure Statement have been considered by the examiner (see attached PTO-1449).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. **Claims 1, 25, 31, and 37** rejected under 35 U.S.C. 102(e) as being anticipated by Parnes (United States Patent 6,614,801).

Regarding **claim 1**, Parnes discloses circuits and methods for detecting the mode of a telecommunications signal. In addition, Parnes discloses an electronic circuit for receiving a differential mode signal on a first pair of conductors and transmitting a signal on a second pair of conductors, the circuit comprising: a first steering circuit responsive to the differential mode signal on the first pair of conductors for generating a signal on one of the second pair of conductors; and a second steering circuit responsive to the differential mode signal on the first pair of conductors for generating a signal on

the other of the second pair of conductors, as disclosed at column 2, line 49 through column 5, line 25; claims 2 and 10.

Regarding **claims 25, 31 and 37**, they are interpreted and thus rejected for the reasons set forth above in the rejection of claim 1.

Allowable Subject Matter

3. **Claims 2-24, 26-31, 32-36, and 38-65** are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion
